

I understand that Theresa Collier N.D. is a naturopathic doctor currently licensed in Vermont, and that because of the lack of regulation for naturopaths in the state of Virginia Dr. Collier is unable to achieve a licensure status in this state.

It is further understood that because the state of Virginia is unable to grant licensure to naturopathic doctors, a naturopathic doctor in the state of Virginia is unable to diagnose or treat any medical condition.

Being aware of these restrictions, I agree to consult with Theresa Collier N.D. for the purposes of health education and general information.
